foreclosure fraud mortgage note securitization Rep. Alan Grayson

Stop the foreclosure process dead in its tracks, keep your home, and save money every single month. Our Principle Reduction Program, which involves litigation against the bank in Federal court may result in the elimination of 40-60% of your current loan balance on your home and will lower your monthly mortgage payments.

mortgage foreclosure fraud It does not matter if you are late on your payments, even if you're months behind. If your mortgage qualifies (and literally thousands of mortgages do qualify due to a possible breach of contract many mortgage companies are in with the home owners) note securitization then you can breathe a sigh of relief because you and your family can, in fact, stay home!

Remember, if your home was purchased or refinanced between 2002 and January 1, 2008 there's a very good chance your home mortgage was securitized and sold as an investment, and therefore the mortgage company may have been paid already and is in breach of their contract with you. Few companies have the expertise to get the facts on each and every mortgage, but our expert resources will discover the truth and possibly alleviate all of your late payments, 100% of your negative equity and negotiate a dramatic reduction in payments too.
