**can i pay my mortgage online the last day
of the month and have it not considered
late?**

I could pay it today, but i don't get paid until tuesday and i am not sure if i should pay it and risk nsf. if i pay it today does anyone know when it will post to my bank? If i pay monday , online, will it be accepted by the mortgage company as a payment under 30 days. Maybe i will pay today, and take my chances on it not posting until tuesday night? Please help . . . i know . . . i should have paid earlier and i wouldn't be stressing.

if you pay online won't the money deduct from your account immediately or the next business day which would be Monday

just according when your payment is due though

a few days late will not be reported as a late payment
