Get money from leads your throwing away!

As a mortgage professional, you've got to put up with lots of borrowers seeking your help but are just not qualified yet. Perhaps they need more money to put down on a home... or they need to get their credit scores up... before they can qualify.

Now what if you could convert some of those turndowns into commissions? How would you like to collect fees on your non-deals? Would you like to get more referrals and repeat business by successfully helping more of the borrowers no one else can touch?

I'd like to help you cash-in on more of the borrowers coming to you right now without spending another dime or another minute on getting new leads. Let me explain... Do you have pre-qualified borrowers at 80% or 90% LTV but lack the 10% to 20% to put down? You might be able to close their loan immediately if you had a flexible seller willing to carry back a second, right? Good news. We are that seller.

With our trademarked EZhomebuyers Program we can turn your 'turn downs' into cash. Call 260-436-5000 or online [www.EZCashAwards.com](http://www.EZCashAwards.com).

To see our current home rent-to-own listings go to [www.RentToOwnListings.com](http://www.RentToOwnListings.com)
