Where can I take an good online Mortgage Loan Processor course?

My dad is a Loan Officer and I want to process his loans. I have researched courses online that range from \$90-\$400. I don't care the cost I just want a good course that will be worth it. Any suggestions?

ask him what classes he feels you need.

is he a mortgage broker too or just a LO?

ask him if he has access to NON-institutional \$
what is sometimes called hard money.

[no 1003/, no fico, no front fees of any kind, very low ltv,
high points, etc. I have lots of customers for those loans!]
